

# KOREA·ISRAEL INDUSTRIAL R&D FOUNDATION

## Robotics Webinar – Entity Information

- Entity Full Name:

Korea Electronics Technology Institute

- Website:

[www.keti.re.kr](http://www.keti.re.kr)

- Sector/Segment:

Robotics

- Presenter full name:

Sewoong Jun

- Presenter title:

Robotic Picking Technology for logistics

- Presenter e-mail:

daniel@keti.re.kr

- Entity short description (up to 100 Words)

KETI is established for  
Enhance the global competitiveness of the electronics industry by performing R&Ds on  
electronics & IT technologies and serving as the business platform to boost the growth  
of companies

# KOREA·ISRAEL INDUSTRIAL R&D FOUNDATION

- Technology description (up to 150 Words)

Deep learning algorithm based robotics technology for grasping, picking and handling of a specific object a pile of mixed objects
